Cat scratcher&tree

## Our story:

Our founder Simon, is a pet lover. He had a dog named Max who has been with him for 7 years and they are always supporting each other like family. In an accidental situation, Simon needed to take a business trip so he sent Max to a pet daycare center, where Max died unexpectedly due to an unknown virus infection. This incident hit Simon a lot, and he began to pay close attention to pet health issues. He found that people in the industry spend far more on marketing than the product itself, and many factories do not have relevant certifications for their products, which worries him. Since then, he has been determined to devote himself to the pet supplies industry, hoping to provide a safe, healthy and happy environment for all pets to avoid the same tragedy from happening again. Therefore, Simon contacted a professor friend at South China Agricultural University and decided to cooperate in scientific research on related pet products. And then we started factory production and established our own pet base.

After more than ten years of development, we have established a complete production line, including pet feeding, cleaning and grooming, entertainment, and other daily necessities. We have an innovative R&D team, professional consulting team, strict QA & QC procedure, and fast delivery services. All our products have CE, FCC, ROHS certificates. Now, we have become the leading one-stop pet supplies solution expert in China.
